TCA has been developed to respond to the specific requirements of municipal asset management and reporting:

- Manage capitalized and non-capitalized assets, including additions and disposals.
- Search for assets based on Department, Asset Category, Asset Class, Asset Sub-Class or Location.
- Select an amortization method, calculate and post amortization right to TownSuite Financial GL – no extra journal entries required
- Prepare Capital Asset Reports, including a Continuity Schedule.
- Store the data you need to prepare an Asset Management Plan.
- Integrate with other TownSuite Modules to avail of Job Costing, GIS mapping of assets, manage Assets Under Construction, and more.

Stop Searching

Uncomplicate Document Management by using built-in tools to attach any electronic file to asset accounts – invoices, photos, videos, agreements and more.

Take Control

Take control of your information – add or edit asset criteria as necessary, including condition, useful life and other details, and repost your amortization

Made To Work Together

TownSuite Municipal Software products are designed to work together as an intelligent ERP solution made just for you.
